Her heart is on her sleeve and it is looking right
through me
You gently vicious slowly never felt so naked
So break me down until I fall but stop before you break
it all
I never thought you'd cry I thought that you would make
it

Stop me
Not for long
Dancing from below
Stop me
Not for long
I think I might have let you go

Sex not love
I taste it in your make up
Sex not love
I taste in your lips

for the girls in the back while they're messing up their
hair
and the boys breaking hearts pretending that they care

Sex not love
its only make up sex

Breaking up the silence with the things she knows
I think I might have pushed to hard for her to go
I can hardly take what my voice will make
I can't believe the time I almost had to let her know

Stop me
Not for long
Dancing from below
Stop me
Not for long
I think I might have done you wrong

Sex not love
I taste it in your make up

Sex not love
I taste in your lips

for the girls in the back while they're messing up their
hair
and the boys breaking hearts pretending that they care

Sex not love
its only make up sex

I think I've got it right
I think I've got it right

So stop stop me you know I cannot breathe I cannot
breathe
into your heart I cannot see
So stop me now, I think I might have let you down

Sex not love
I taste it in your make up
Sex not love
I taste in your lips

for the girls in the back while they're messing up their
hair
and the boys breaking hearts pretending that they care

Sex not love
its only make up sex
