This is our chance, this is all that we got  
Let 'em all know what's really in our hearts  
The lack of support is the fuel for the fire  
We want this too much to let our chance expire  
To those who doubt us  
And wouldn't bet on us to win  
It may take 10 years  
But you'll eat your words in the end  
East Coast and West Coast to the Midwest  
We won't give up  
Welcome to Memphis  
MSHC-Memphis Style  
We'll make a name for ourselves

There's no end for us in sight  
We're here to stay  
This is Memphis, don't forget it  
Against the odds  
We'll make a name for ourselves  
With no approval from anyone else  
To those who offer a hand  
And know what we're about  
We respect you to no end for helping us out  
To anyone who tries to keep us held down  
Thank you so much, you're the reason  
We're still around
