Go away! who are you? What do you want?  
You know some truths I don't want to leave all the  
shining mirrors  
I have presented here with such a beauty  
following colorful lights I found the life  
patterns here are not so different from me  
I can freely express myself  
even if a mistake could make me fall down  
to the sheltering crowd  
gathering at my feet and listening to me  
without looking for distant and bad meanings  
I rejoin the usual people following me  
even if one day I'll have to go back there  
now I am here  
near, more than ever before, to the gods  
I always admired in my sleepless nights  
listening to them in silence  
I wondered of perfect loves  
I asked Morpheus to be loved too  
and fell asleep strong and happy  
until the unavoidable awakening

Now I understand that my journey is ending  
I have to go back beyond the sky to pick up  
what I had to leave as hostage when I left  
I look for great meanings to take when coming back  
to use them as glue in future re-constructions  
it's sad to think that even a single voice can  
represent a reason which doesn't exist  
letting insecurity grow inside of you for years  
even taking the will to breathe away from you
