Trees falling leaves come alive, watch them glide
Eyes come to life when you smile for a while
Tables keep turning, now the full moon has been seen
Know what I mean?

Tell you what to do baby, all night long
It would take me all night long
Show you how I feel all night long

I've seen you in the papers they say you play at pool
I think you got me snookered if we play your rules

Maybe you can't see the way to be sure anymore
I can't help feeling like closing the door
Images are fading and the thought of you has gone
Baby it's wrong

'Cause all I need is all night long
It would only take me all night long
To show you how I feel all night long

They say you read me like a book then make the book a
film
You can write the screenplay I can't wait 'til then

I wish I knew what I could do
It feels like something's overdue
Communications broken down
Still got me snookered when you wear your crown

All night long
It would only take me all night long
Won't you, won't you give me all night long

Yeah, I've seen you in the papers they say you play at
pool
I think you got me snookered no exception to the rule

Give me all night long
Won't you, won't you give me all night long
It would only take me all night long

To show you how I feel
'Cause you still got me snookered and it's quite unreal
All night long
It was take me all night long
