Well, I spent a little time driving down the wrong road,
now
In the middle of the storm I didn't know which way to
go, now
I was blinded and I couldn't see
Hey hey yeah, any hand to hold could ease my misery

Let's get back to the start, don't tear down this heart of
mine
Cause I've been waiting, waiting a long, long time
Let's get back to the start, don't tear down this heart of
mine
Cause I've been waiting, waiting a long, long time

But since I have you by my side, you know I've got the
motivation
And like a fire in the night I can see my destination
Now I know exactly what I'm fighting for
And I'm not, not going to be held down anymore

Let's get back to the start, don't tear down this heart of
mine
Cause I've been waiting, waiting a long, long time
Let's get back to the start, don't tear down this heart of
mine
Cause I've been waiting, waiting a long, long time

My wheels are turning and I'm out of control now
My head is burning - I can't slow down

Lets get back, back to the start
Let's get back to the start, don't tear down this heart of
mine
Cause I've been waiting, waiting a long, long time
Let's get back to the start, don't tear down this heart of
mine
Cause I've been waiting, waiting a long, long time
Waiting a long, long time
