

## Peter Frampton

### "People All Over The World"

Visit "[People All Over The World](#)" on [MotoLyrics.com](https://MotoLyrics.com)

People Over The World  
Reach Out your hand  
And touch one and another other  
People Over The World  
We are the same  
just different colors  
We have one life to live  
So much to give and so much to share  
There is love to be found  
Just look around  
There's happiness there  
People over the world  
Love without chains  
Like sisters and brothers  
Face each day with a smile  
And in a while sunshine appears  
You'll feel warm deep inside  
No need to hide, from danger and fear  
People Over The World  
Reach Out your hand  
And touch each other  
People Over The World  
We are the same  
just different colors  
We have one life to live  
So much to give and so much to share  
There is love to be found  
Just look around  
There's happiness there  
People reach out you hand.  
Reach out your hand
