Hey baby, give me a break  
I seem so frantic  
It might be too late  
I'm trying, trying to hard  
Trying to see what's behind the facade

Turn around, you never hear what I say oh oh  
Hey baby, how do I get thru  
I'm trying every angle with you  
Don't tell me, you call me unfair  
All your lying is like a knife in the back  
Don't deny, you never hear what I say  
Whooh oh oh

You kill me with your lies  
You kill me, don't you cry  
You kill me whaaoh oh  
You kill me ooh oh oh  
You kill me

Yeah  
Hey baby give me a chance  
Won't you take me for one last dance  
Hey baby I'll do you right  
I'll take you dancing way into the night  
Don't deny, you never hear what I say  
You never hear, never look, never see  
What I say

You kill me with your lies  
You kill me, don't deny  
You kill me ooh oh oh  
You kill me oow oow  
Ooh ooh

Yeah you kill me with your lies  
You kill me, don't you cry  
You kill me whaaoh  
You kill me ooh ohh  
You kill me
