Come back and shake me, take me in your arms
Squeeze me, please me, baby, baby
Shake me, make me yours again
Hug me, bug me, be my baby, love me

Sleeves throughout torn, my buttons are loose
My makeup is starting to fade away
Sparkle your book in my dolly eyes
His ?.....? that clouded right by me
My room is my house, my bed is my home
My pillow's my friend, my old friend
Your old baby doll, your regular doll
Is waitin' for you to play again

Come back and shake me, take me in your arms
Squeeze me, please me, baby, baby
Shake me, make me yours again
Hug me, bug me, be my baby, love me

Bring your old tools and fix up my heart
And get your old doll together-er
Put back the colour fall'n from my lips
A kiss on my neck'd make it better-er
Love is my life, life is my love
My world is my man, my only
Your old baby doll, your regular doll
Is waitin' for you to play again

Come back and shake me, take me in your arms
Squeeze me, please me, baby, baby
Shake me, make me yours again
Hug me, bug me, be my friend
Shake me, take me in your arms
Squeeze me, please me, baby, baby
Shake me, make me yours again
Hug me, bug me, be my friend
Shake me, take me in your arms
Squeeze me, please me, baby, baby
Shake me, make me yours again [fade]
