Watch out, you're entering the dangerzone
We might start something that's emotional
Our pockets full of little miracles
That held us through the long and dark and ugly blue,
Blue days

We'll lose our minds with every passing day
Our fear of change could blow the game away
Our future's right here in the dangerzone
Come join us deep within the long and dark and ugly
Days

Watch out, you're entering the dangerzone
We might start something that's emotional
Our pockets full of little miracles
That held us through the long and dark and ugly blue,
Blue days

'Cause you're at the center

You sense the nature
Let's get down to business
How far are you going?
I'm going all the way
Let's gather a memento
Imagine you're driving a pristine new road

Let's climb down from trees
Emerge from the river
Let's vacate the beaches
And far distant shores
Imagine you're driving us out of the blackness
And into the blue, blue, blue, blue days

Watch out, you're entering the dangerzone
We might start something that's emotional
Our pockets full of little miracles
That held us through the long and dark and ugly blue,
Blue days
