

16 Volt "Alkali"

Visit "[Alkali](#)" on MotoLyrics.com

My skin is opaque
Like white seaweed
Shallow and weak
I have no feeling

See through me
(nothing ever makes it through)
See through me
(even though i promised it)

Most worthless shell
Like a ghost in a dream
Cantisending life
Like satin white sheath

Can I ask you something?
Do you see me near you?
Slowly going over it
Alkali

You make it all clear
Nothing makes it better
You make it all clear
Nothing makes it better
You make it all clear
Nothing makes it better
You make it all clear
Nothing makes it better

Can I ask you something?
Do you see me near you?
Slowly going over it
Alkali
