"And I Go"

It's become apparent
In my head a little machine
In the light I'm quite transparent
In the dark, I'm such a dream

There are two sides to me
Sometimes I set the evil one free
Cause I'm in love with the devil
And she's in love with me

(Chorus)
And I go, and I go away
And I go, and I go away
And I go, and I go away

Sometimes I lose myself
Sometimes in a bad way
It's never ending im going to hell
As long as you go with me

When you're down you'll only want it now
Isn't it nature to break somebody's heart?

(Chorus x2)

(Short Instrumental)

I won't treat you wrong
And I won't treat you bad
And in my eyes tonight
And if you're all alone

I will be you're only(x5)
