Have you lost your faith
Did you dig your hands in too far
Did your halo last
Or did it fade

Now did you want it bad
More than the sun
I figured out denial

Feel the will of pain
Hits like metal rain
Head just too far gone
Fuck it just give me more

Did you shift your anger
Have you gained more by speed
Did you finally scrape bone
Or does your soul seethe

Now did you throw it all away
More than the last time
I figured out denial
