"Enemy"

He sells me just as a commodity
Another sell out for the company
Another soul down in his resume
Another profit for my enemy
Enemy
The enemy
Enemy
He hunts and mates within the industry
His ego swells with opportunity
His motivation is the royalty
Another profit for my enemy
Enemy
The Enemy
Enemy
This wont destroy me
This wont destroy me
This wont destroy me
This my ultimate destiny
This wont destroy me
This wont destroy me
This wont destroy me
Fuck the record industry
He kills off all originality
He strips it down to label policy
He markets me for mass quantity
Another profit for my enemy
