"Keep Sleeping"

Fell into a sleep
Something grabbing me
All the time is lost
Everyone is gone
There i go again
Everything is dead
Everyone is fucked
Every time im stuck
Fell to easy
Someones own is all alone
Fell to easy
Someone grows into a stone
Fell into a sleep
Never ending dream
All the time is lost
Slip into exhaust
There i go again
Everyone is dead
Life has become lame
You're the one to blame
Fell too easy
Someones own is all alone
Fell too easy
Someone grows into a stone
Fell too easy
Sometimes i wish i could end you
Fell too easy
It would be so nice to remove you
Fell too easy
Sometimes i wish i could end you
Fell too easy
It would be so nice to remove you
