God is now here  
God is nowhere (6x)

I lost my way in the daylight  
I flew out with no wings  
So find guidance on Sunday  
I found mine with the weak

I should be looking for miricles  
But all I'm finding out is pain  
I should be searching for miricles  
But now I'm dying in vain

I've been chosen a healer  
Standing faith from the saint  
I've been down with the meager  
'Cause they can't be explained away

I should be looking for miricles  
But all I'm finding out is pain  
I should be searching for miricles  
But now I'm dying in vain

God is now here  
God is nowhere(over and over until end of song)

I should be looking for miricles  
But all I'm finding out is pain  
I should be searching for miricles  
But now I'm dying in vain
