Ksero girto klathi, ksemina mesa sta malia su
sa mesimeri Kiriakis, stalazo pia mes tin kadia su
Erimo tha ne to proi, pu ksipnises stin agkalia mu
ke de tha trexis pia esi, ston kipo mesa tis kardias mu

Apotoma apopse pu vradiazi
apotoma xorizun dio zoes
ki i leksis pu fovithikan to stoma
de bgenun na enosun dio kardies

Apotoma apopse pu vradiazi
apotoma xorizun dio zoes
Fthinoporo esi ki ego san Martis
Pos giname dio ksenes epoxes

Etsi ine i agapi matia moy, asteri pu fotizi
svini, petheni ki ena fos, meni na ti thimizi
To asteri afto ston urano, na to kitas, mi to afisis
ke san tha pesi ki afto, efhi tha kano na giriseis.
