So hello where are we today
Still fighting, still running in place
Now the outline of this lake
Seems to be pointing me away
Honestly I've never lied more to myself
All over the floor, right through my teeth I've showed
you
Just how weak my knees can get so

Don't let go
My spine is slipping like a fault line
If I go I'll bury us all
Don't close my door
Don't leave me out with these mosquitoes
Trying to drink up all my wine

Do you wanna know
What my love is?
Oh, do you wanna hear how my song goes?
Do you wanna know
What my love is?
Don't say no
Don't say no

And now it's up to me
To wait, I need you to reciprocate
My heart is ticking like a box
Sent to me by anonymous
And now I'm scared to open it
I'm always blowing up to bits
I'm always running out of lines
Running out of time

So don't let go
My spine is slipping like a fault line

If I go I'll bury us all
Don't close my door
Don't leave me out with these mosquitoes
Trying to drink up all my wine

Do you wanna know

What my love is?
Oh, do you wanna hear how my song goes?
Do you wanna know
What my love is?
Don't say no
Don't say no

Don't let me go
I'll fall apart
Don't say you won't follow my heart
I've kept this deep inside for far too long (it can't be wrong!)
Only one life to give
I cross my heart and hope to live
With you my darling here forever more

So do you wanna know?
Where my love is?
Oh, do you wanna hear how my song goes?
Do you wanna know?
Where my love is?
Don't say no
Don't say no

Don't say no

Do you wanna know?
What my love is?
Oh, do you wanna hear how my song goes? (Don't say no)
Do you wanna know?
What my love is?
Don't say no
Don't say no
