Girl, I found you outside like a sunrise  
It melted my eyes from my skull  
As I turned into ash before my sweet demise  
The end of me was so beautiful

Now you're stuck in my head like a love song  
That climbed to the top of the charts  
How the fuck could something be so right and so  
wrong?  
All the wrong words but all the right parts

You can't sit there and tell me that I didn't try  
And I can honestly tell you that I never lied  
I can't stand this dark feeling  
This shark eating me up inside  
Eating me alive, eating me alive

Well, I found you out there in the moonlight  
In your eyes, there were diamonds like stars  
I was bound by your father that you'd meet that night  
As you said he was still behind bars

Now you're stuck in my head like a love song  
The words I can never forget  
As he sucked on your neck, pulling too long  
And drained you of every last job you had left

You can't sit there and tell me that I didn't try  
And I can honestly tell you that I never lied  
I can't stand this dark feeling  
This shark eating me up inside  
Eating me alive, eating me alive

Here lies a homicidal story, sad but true  
The time has come and gone  
But I'd do anything for you

You can't sit there and tell me that I didn't try  
And I can honestly tell you that I never lied  
I can't stand this dark feeling  
This shark eating me up inside  
Eating me alive, eating me alive

Eating me alive
