Storming through the dark with a broken heart  
All alone at it once again  
Seeping in like a feeling  
You haven't felt since way back when  
In the dead of that night  
Like the summer of Sam  
I got word of the promotion  
You caused me a telegram  
And got all worked up  
We got all worked up

I found a way  
Through the fear and through the flames  
I'm diving in, don't follow me  
Stay right here, I'll be back for you someday  
I found a way  
It'd be best if you just stayed  
It's not safe, don't follow me  
I found a way  
I found a way

Frozen in the lights of a locomotive  
Tied to the tracks again  
You said you haven't felt this comatose  
Since you can't remember when  
Fly off the handle every time  
We sleep straight off with it

I found a way  
Through the fear and through the flames  
I'm diving in, don't follow me  
Stay right here, I'll be back for you someday  
I found a way  
It'd be best if you just stayed  
It's not safe, don't follow me  
I found a way  
I found a way

Oh whoa  
Oh whoa

From the top of my lungs

The truth shall be sung  
Sharp and damning  
Violently stabbing at secrecy  
That look on your face  
It's more than I can take  
It scaring the living hell straight out of me

I found a way  
Over the fear and through the flames  
I'm diving in, don't follow me  
Stay right here, I'll be back for you someday  
I found a way  
It'd be best if you just stayed  
It's not safe, don't follow me  
I found a way  
I found a way

I found a way  
I found a way
