Midway in our life's journey
I found myself in the dark woods, the right road lost
To tell about those woods is hard and so tangled and
rough
And savage though thinking of it now
I feel the old fear stir in me

Stumbling through the dark with a broken heart
All alone battered once again
Seeping in like a feeling you haven't felt since way back
when

In the dead of that night like the summer of Sam
I got word of the commotion you caused via telegram
And got all worked up, we got all worked up

I found a way over the fear and through the flames
I'm diving in, don't follow me
Stay right here I'll be back for you someday

I found a way, it'd be best if you just stayed
It's not safe, don't follow me
I found a way, I found a way

Frozen in the lights of a locomotive, tied to the tracks
again
You said, you haven't felt this comatose since you can't
remember when
Fly off the handle every time we sleep straight off the
deep

I found a way over the fear and through the flames
I'm diving in, don't follow me
Stay right here, I'll be back for you someday

I found a way, it'd be best if you just stayed
It's not safe, don't follow me
I found a way, I found a way
A way, a way

From the top of my lungs the truth shall be sung
Sharp and damning

Violently stabbing at secrecy

That look on your face
It's more than I can take
It's scaring the living hell straight out of me

And I found a way over the fear and through the flames
I'm diving in, don't follow me
Stay right here, I'll be back for you someday

I found a way, it'd be best if you just stayed
It's not safe, don't follow me
I found a way, I found a way

I found a way, I found a way, I found a way
I found a way, I found a way, I found a way
I found a way, I found a way, I found a way
I found a way, I found a way, I found a way
