You hit me just like heroin.
I feel you coursing through my veins.
I won't try to kick this addiction.
I swear I'll never kick again, won't ever kick again, no.

This addiction.
Can't seem to live without you.
This addiction,
Now going clean.
This addiction,
Go through, it's all without you.
Stick with this addiction in me.

Well, those others were like methadone
I took to get me through the day.
Now I'm trying to find my way back home,
Staying clean along the way.
Hold out for the real thing, yeah.
This addiction.
Can't seem to live without you.
This addiction,
Now going clean.
This addiction,
Go through, it's all without you.
Stick with this addiction in me.

This addiction.
This addiction.
This addiction.
Go off the roads without you.
Stick with this addiction in me.
