yeh what can i say?
My heart needs you,
My body needs you,
I need you

I see you dancing there, should i approach?
You seem to be sending out signals double time!
Maybe i will dance your way, but most likely i won't!

My heart needs you,
My body needs you,
I need you

I finally supress the butterflies!
i do what know other does,
i walk over casually
and you seem to walk further away!

My heart needs you,
My body needs you,
I still need you!
