Take a look around
At what technology is found
Is it what we need or are we killing the scene?
Dictated by the screen
No more following your dreams
The worlds become a difficult place to be
Where are we going?
Does anyone care?
Hold on to real love?
There's so much to share
(Chorus)
Do Do Do Do Do
Do Do Do Do Do
Do Do Do Do Do
This is Insania (x2)
Agent will reverse
Cloning will deverse
Insanity is slowly creeping into our minds (Yeah)
Where is yesterday? (Yeah)
Cos people aint the same
Have we lost the faith or have we lost our minds?
Where are we going?
Does anyone care?
Hold on to real love
There's so much to share
Chorus x 2
