"Keys To The City"

Visit "[Keys To The City](#)" on MotoLyrics.com

Everywhere I go I'm first in line, don't need no money
got lots of time.

Bottom of my list is tea with the mayor, got the key to
the city, now you better beware.

All the beer in the bars and shops is free, everybody
come down and have a drink with me.

I get free meals in every restaurant, with the key to the
city I can have what I want .

I got the key to the city, now everything's free.

I got the key to the city, they shouldn't have given it to
me.

I've got the best suite in the best hotel, anything I want
the city pays the bill.

Do what I want I'm exempt from the law, 'cause the key
to the city opens every door.

All the beer in the bars and shops is free, everybody
come down and have a drink with me.

I won't waste my time with city dignitaries, gonna
make 'em regret giving it to me.
