"On The Surface"

On the surface
Phosphores glaming;
Deep down
We carry on dreaming.
On the surface
Compass and charts checked;
Deep down the current run
In a shining vortex,
In a swirling vortex.
On the surface
Oil troubled water
Sails set the seas on fire
To the farthest quarter....
Are we dreaming?
Dream deep of childhood,
Dream deep of future days -
It'll all come good,
Deep dreaming.
It'll all come good,
Deep dreaming.
It'll all come good,
It'll all rise to the surface,
Deep dreaming
