Three times I entered looking for some work  
But I don't want to work for a damn jerk  
A jerk like you, good looking but a fool  
You're wasting your time, just go back to school...

When I'll be a boss with my own private whores  
Living in a palace and drinking lots of wine  
You need someone to find some shit chorus  
Mind your own business, cause I have mine

I don't want your fucking job anymore  
I'll do it my own way  
And if you think I am going to suck your dick  
Well then, just blow away...
