Chorus:

Let me keep it, keep it
Cause I ain't gettin enough, I ain't getting enough, I
ain't getting enough
Cause that's what she do, what's she doing
Keep wild on that horse, wild on that horse, wild horse
Look how we own it, aha
...the moment, aha!
She keeps calling me, call, call, call
I ain't get enough, I ain't get enough

I ain't get enough cause, I ain't get enough
Got me looking at a body like I'mma hit her up
I love the way she move, I love the way she dancing
She got my money flying up, yeah, my money flying up
She got me thinking to myself that I ain't high enough
More battles, more bed, fuck her up and tie her up
Yeah, six am in the six benz
That's my split frame, doing split
I told this what's she doing
What you do for me? Yeah, you for me
No religion, it's a true story
I ain't getting enough, so I'mma rip it up

Cause she fine, she falls,
Cause she doing that thing like she supposed
And she fly, and she knows it
But she's going on for that paper, and she's going
on for that paper!

Chorus:

Let me keep it, keep it
Cause I ain't gettin enough, I ain't getting enough, I
ain't getting enough
Cause that's what she do, what's she doing
Keep wild on that horse, wild on that horse, wild horse
Look how we own it, aha
...the moment, aha!
She keeps calling me, call, call, call
I ain't get enough, I ain't get enough

Talking down, spin around, turn your body upside
down
To the bank, body playing
Come take somebody's purple drink!
Worked the pole, think I'm gonna hit this weed and let
them work your soul
Make it rain, throwing money at you was my only goal
Damn girl, where you learned that? How you make it
clap?
Almost climaxing and you're almost sitting on my lap
I ain't get enough of you, I'm trying to take anything
you got
Like the comfort of your hood, so I fuck with you
Maserati, looking like a jag, and you do Pilates
Ice is so cold, but this bitch is like the perfect hottie
Dance for me, as a matter of fact dance for my men for
me
Think of girl, of everything you're doing in my pants
for me!

Chorus:

Let me keep it, keep it
Cause I ain't gettin enough, I ain't getting enough, I
ain't getting enough
Cause that's what she do, what's she doing
Keep wild on that horse, wild on that horse, wild horse
Look how we own it, aha
A...the moment, aha!
She keeps calling me, call, call, call
I ain't get enough, I ain't get enough

You know that we all gonna die
So I'mma live it up
Hustle is in my blood, I can't give it up!
I'mma pop a couple bottles, spend a couple bucks
But I don't want a lap dance, I just wanna fuck
Cause we're being passed, pills being popped
Yeah, we're drinking champagne, but we're still
taking shots
It's just money in the air, money on the floor
When they start kicking in, that's when...
Now they're looking for the water, I blow another
quarter
We don't need... the crib, after party for the
slaughter
Most of them showing love, but some is acting tough
And this sack is looking right, but I ain't get enough

Chorus:

Let me keep it, keep it
Cause I ain't gettin enough, I ain't getting enough, I

ain't getting enough
Cause that's what she do, what's she doing
Keep wild on that horse, wild on that horse, wild horse
Look how we own it, aha
...the moment, aha!
She keeps calling me, call, call, call
I ain't get enough, I ain't get enough

She knows what she's doing, she grinds
I love what she's doing, she's mine
She saw that D black tattoo and it caught her eye
She say that I talked to a different
Real talk, I'm into the pimping
She out a king of diamonds, flowing but just for
stripping
Eyes blue, but her body right
Style hard and that ass tight
First class for that one night
Two girls and they're both piped
Uh, uh, uh it's what you do to me
Pulling that drunk kick is how you move for me!
Yellow gold and the accent
Head game is like aspirin
...gotta pop that, let me know how that back bent!
Uh, uh, uh, uh
Baby, it's just you and me
Can't get enough of that body, I think it's time to
leave!

Chorus:

Let me keep it, keep it
Cause I ain't gettin' enough, I ain't getting enough,
I ain't getting enough
Cause that's what she do, what's she doing
Keep wild on that horse, wild on that horse, wild horse
Look how we own it, aha
...the moment, aha!
She keeps calling me, call, call, call
I ain't get enough, I ain't get enough
