Spending my time  
In an empty house  
Seeing things through saddened eyes  
Now that I am  
A wreckage more or less  
Messed up big time  
Caressed by loneliness  
I've messed up my life  
Spending my time  
Caressed by loneliness  
A wreckage more or less  
I've messed up my life

Cosmonaut, do you read me?  
(I have to know)  
Is there anything we can do?  
(For you)  
Cosmonaut, can you hear us?  
We are still waiting for you

I am so  
Fed up your games  
Just leave me alone  
Now that I am  
A wreckage more or less  
Messed up big time  
Caressed by loneliness  
I've messed up my life  
Spending my time  
Caressed by loneliness  
A wreckage more or less  
I've messed up my life
