"Without You"

Visit "[Without You](#)" on MotoLyrics.com

I don't know where you are,
I don't know why you left
please come back to me
I'd love to have you near

I do not where you are,
I do not know why you left,
but I do know
that I miss you

Where are you now
What have you been up to
Do you remember me
Don't you know,
that I miss you?

Without you, storms break my concrete
Without you, things will never be the same again
Without you

Where are you now
Do you remember me
After all this time
I don't know what to say
I don't know if you will listen to me

Don't you know
that I miss you
