If we never found this love  
If we never took that road  
If we hadn't had the heart  
We wouldn't have this home

Love, love will take you  
Love, love will take you there  
Love, love will take you  
Love, love will take you there

In this world the heart beats slow  
In my arms let's share the cold  
In my eyes you're all I've known  
Darlin' let's go home

Love, love will take you  
Love, love will take you there  
Love, love will take you  
Love, love will take you there

Love, love will take you  
Love, love will take you there  
Love, love will take you  
Love, love will take you there
