The sun will rise from the east; An' always set in the west
Jah-Jah made it so; It's gonna be so

Now, devils come wid a trick; They want everything to change
What is wrong is right
What is right is wrong
Somethin' clicks on your mind
A big question rise from within

Is this doomsday comin' soon
Is this doomsday comin' soon
Is doomsday comin' soon
O, I would like to know
Everyone would like to know

Is this doomsday comin' soon
Is this doomsday comin' soon
Is doomsday comin' soon
O, I would like to know
Everyone would like to know

These stripshows that you show on television
Could you gimme one good reason why you enforce it on us

I say these stripshows that you show and call dem love songs
Could you gimme one good reason why you enforce it on us

It feels like Judgement morning
Jah-Jah children matching home

It feels like Judgement morning
And da church's advertising condoms

Tell me is this doomsday comin' soon
Is this doomsday comin' soon
