we didnt have enough time, not enough time to do
what we wanted, to do what we started, before we got
parted, at the party. all my friends were there and you
were too. you could see that i could see through you.
was i so boring i started you snoring? why did you
sleep in the corner like a heap of clothes? who knows? i
was gonna call you up. im not gonna. got your number
but i dont know where. i dont care. dont tell me you had
to much to drink. i was standing with you by the sink.
