Long distance

Last good-bye, can't groove it

One last try, it's all over

We didn't even cry

All I know is that the world came between us

And the love got left behind

No news flash, funeral

Half-mast flags on the day that our love died

I'd tell you face to face if I could look you in the eye

So I just called to say good-bye

Did you burn my pictures yet?

Anything to try to forget it's all over

All I can do to stay on the line

All I know is that the world came between us

And the love got left behind

No news flash, funeral

Half-mast flags on the day that our love died

I'd tell you face to face if I could look you in the eye

So I just called to say good-bye

We both know how hard it is for both of us to try

We both know how hot it is in Texas in July

So what am I supposed to say?

How's the weather anyway?

This time I called to say good-bye

Who'd have thought it would end like this?

Without even a good-bye kiss

No one could say we didn't try the years flew past

We tried to make it last

But the love got left behind

No news flash, funeral

Half-mast flags on the day that our love died

I'd tell you face to face if I could look you in the eye

So I just called to say good-bye

I just called to say there's nothing really left to say

So I just called to say good-bye
