I know something you don't know
Something that you've probably guessed
I just had to let you know
Had to get it off my chest
Strictly between you and me
Is simply how it ought to be
I can't keep it secret now
There's nothing up my sleeve
I need you here with me

The last thing I would ever do
Is try to hurt or frighten you
I know you've heard this all before
But won't you listen just once more?
The words just don't come easily
Another girl might laugh at me
I'd never need another girl if you were mine today
Do you feel the same way?

Well I could turn
And we'd both be
Alone today
It's true
But I believe in you
I won't turn away from you
I won't turn away
