

All "Nothin' to Live For"

Visit "[Nothin' to Live For](#)" on MotoLyrics.com

You keep talking 'bout suicide
You make me want to ignore
Whine and complain about your worthless life
But you don't try to make it more

If there's nothin' to live for, then maybe it's time
To find something to live for and live your life

Maybe you should get a job
Everybody agrees
If you can't find any good in you
Then maybe you just shouldn't be

If there's nothin' to live for, then maybe it's time
To find something to live for and live your life

Get on with it
Or get it over with
Well rid of it

We all wonder about life itself
But we try to move forward anyway

If there's nothin' to live for, then maybe it's time
To find something to live for and live your life
