Mirror, mirror, please believe
Need to find myself
All my life spent wondering
I've been trying to hide this place of mind

Confusion, illusion
Misinterpretation
Of the original me

I need a sign a simple chime
When grown kids have crossed my mind
Followed to in the craziness
A welcome man who rode behind

Confusion, illusion
Misinterpretation
Of the original me

What big thoughts you had
I can see them in your eyes
When you pretend to laugh, reflection I see
Reminds me of somebody like me

Tender day spent to laugh
Don't say all but the impact
Mental prostitution
In this universal, institution

Confusion, illusion
Misinterpretation
Of the original me

Confession, aggression
My time to end this session
One bang and I'm free

What big thoughts you had
I can see them in your eyes
When you pretend to laugh, reflection I see
Reminds me of somebody like me

What big thoughts you had

I can see them in your eyes
When you pretend to laugh the reflection I see
Reminds me of somebody like me
