special to me. you will always be the one that i think of  
when i look back upon my life. you love me, fantastic as  
it may be. even though we both know that it should  
never be. and i love you even though i know too that  
our love is taboo. we'll have this time for all time and no  
one can take it away. special to me. you will always be
