One fine night the air did bring
Two little ones, called to be
I am, yours to mind so let that be
Give your life, it's given free

Huvola, huvola, huvola, huvola

When a time, that will come to part us
Forget me not, for it is here in those missing times
We send our deepest sense to climb
One fine night where one heart enjoins

Huvola, huvola, huvola, huvola

Hark and be well
Go catch the light in every cell
Let the fire take the fire and the rain wash the pain
May your soul's waters never wane

Make Eden here
Send Angel's prayers
May your garden be sweet
Let the fire take the fire
Let the fire take the fire and the rain wash the pain

Huvola, huvola, huvola, huvola
Huvola, huvola, huvola, huvola
