You came to the lobby straight
I took your hand, felt the heat of a different fate
Took sometime to tell you my name
I could smell the sense of fear
Had been lifted from your face
It was time to kick the facade
Walk into the room
Disappear without trace
Oh then I recognised you

It was bright
It was dark
You could say
I couldn't start
I couldn't feel
If the words were right

You were right, I was gone
When you said that the fight was on
With one look, I was yours
The things you gave, the things I took
See that star, in the sky
It's a mirror to my woman's mind
Let me burn in her fire
In that mirror to my woman's mind

I'm gonna take you to the mountain first
Then we'll look down on the work, work to be done
There's no need to live for the world
Don't leave the world, the world will leave you

It was bright
It was dark
Something big
Was about to start
I wouldn't say
I'd got it right

You were right, I was gone
When you said that the fight was on
With one look, I was yours
The things you gave, the things I took

See that star, in the sky
It's a mirror to my woman's mind
Let me burn in her fire
In that mirror to my woman's mind

Ohh
Say you will be mine
Say lie, lie
Lala, lalala, la, lala, lala, lala, la
La, lalala, lala, la
La, lala, lala, lalala, la, lala, lala, la
Say you will be mine
Say lie lie
La, lalalala, la, lala, lala, la
La, lalala, lalala, lalala
