Every time you leave me
Go back in my mind and I find
Every time you held me
And I can't help this feeling inside
So...

Won't you thrill me now
Won't you fill me
I'm feeling so empty
I'll be your toy now
Won't you destroy me now
Then build me up again

Won't you thrill me now
Won't you fill me
I'm feeling so empty
I'll be your toy now
Won't you destroy me now
Then build me up again

Every time you need me
Why don't you come over and try to
Satisfy yourself in me
I can't help the pleasure I find
When...

You abuse me
Won't you just use me now
I'm feeling so happy, so
Won't you tease me
Just come and ease me now
Then give me up again

You amuse me
Won't you just use me now
I'm feeling so happy, so
Won't you tease me
Just come and ease me now
Then give me up again

Won't you fill me now

Won't you please...
Just amuse me...
Just... Just... Just...

Won't you thrill me now
Won't you fill me
I'm feeling so empty
I'll be your toy now
Won't you destroy me now
then build me up again

You abuse me
Won't you just use me now
I'm feeling so happy, so
Won't you tease me
Just come and ease me now
Then give me up again

Oh... won't you leave me again

Oh please, please
Leave me!
