Tell me I'm I dreaming  
Tell me it is true  
Do you love me baby like I love you

Tell me I'm I dreaming  
Tell me it is true  
Do you love me baby like I love you

Like I love  
The way you think, and some other small things  
Some things I can't see hidden deep behind your skin  
And it makes me happier  
And I know it's never what it shows  
And it's not just what it seems  
It's something far more beautiful

Tell me I'm I dreaming  
Tell me it is true  
Do you love me baby like i love you  
And if you do...

We could make our own revolution  
And change the frames of time  
While moments keep on flowin'  
In this sweet mornin' divine

And if you like it just the same  
We could begin it all again and again  
Yeah, if you like it just the same  
We could begin it all again and again  
Oh, if you want me just the same  
We could begin it all again and again  
Yeah, if you like it just the same  
We could begin it all again and again
