Shared the times, how we shared the times
Shared the times, how we shared the times
It will never never be the same
There will never be those good old days
It will never never be again
It will never never be again
It will never never be again

('n'there's) no way that you are gonna get me
'Cause I'm right at it and I aint gonna let it
(n'there's) no way that you are gonna get me
'Cause I'm right at it and I aint gonna let it
(n'there's) no way that you are gonna get me
'Cause I'm right at it and I aint gonna let it
(n'there's) no way that you are gonna get me
'Cause I'm right at it and I aint gonna let it
(n'there's) no way that you are gonna get me
'Cause I'm right at it and I aint gonna let it
(n'there's) no way that you are gonna get me
'Cause I'm right at it and I aint gonna let it

It's a time machine, it's an easy ride,
It's a movie screen and it feels alright
It's in our hearts, and in our words and in our
Secrets,
Our dreamworks.

No way that are gonna get me
'Cause I'm right at it and I aint gonna let it
No way that are gonna get me
'Cause I'm right at it and I aint gonna let it

It will never never be the same
There will never be those good old days

No way that are gonna get me
'Cause I'm right at it and I aint gonna let it
No way that are gonna get me
'Cause I'm right at it and I aint gonna let it
No way that are gonna get me
'Cause I'm right at it and I aint gonna let it
No way that are gonna get me

'Cause I'm right at it and I aint gonna let it

It's a time machine, it's an easy ride,
It's a movie screen and it feels alright
It's in our hearts, and in our words and in our
Secrets,
Our dreamworks

No way that are gonna get me
'Cause I'm right at it and I aint gonna let it
No way that are gonna get me
'Cause I'm right at it and I aint gonna let it

Never

No way!no way!

It's a time machine, it's an easy ride!
It's a time machine, it's an easy ride!
It's a time machine, it's an easy ride!
It's a time machine, it's an easy ride,
It's a movie screen and it feels alright
It's in our hearts, and in our words and in our
Secrets,
Our dreamworks

Shared the times!
