Inside and within the indoors of our life i'm outside in  
the sun and dive  
Inside no one...  
Inside and within the indoors of our life  
I'm outside in the sun and dive inside no one...  
I dive inside no one

And I've been here too long, been here too long

A big picture engaged in the corner of my eyes  
new forms and shapes to perpetrate the same old lies  
chemical visions, the fundamental fun  
i feel the pulse but i can't see anyone.

(i feel the pulse but i can't see anyone)  
(i feel the pulse but i can't see anyone)  
(i feel the pulse but i can't see anyone)  
inside rusty haze... inside rusty haze...

Inside and within the indoors of our life  
I'm outside in the sun and dive inside no one...

Inside and within the indoors of our life  
I'm outside in the sun and dive inside no one...  
I dive inside no one

And I've been here too long, been here too long

(...)

And I've been here too long, been here too long  
inside rusty haze... inside rusty haze...  
inside rusty haze...
