Over the globe again from the realm of illadelph
The planet overwhelmed yo just brace ya self
Ya wanna go against me first face ya self I pose threat
To whoever within ya commonwealth the top ten

I'm crushing ya crap concoction
To the utmost examine this up close it's shockin'
Now mic droppin' is only ya option
Here come the spliff scientist in the flesh have you
forgotten

His excellency the most poetically inventive official hip
hop shit
That's ya incentive to cop this actual fact and not the
likeness
'Cuz possibly clones'd try to do it like this
Fathom this lyrically fabulous vocabulist

Hold mic like four fifth and lick shot somewhat like Pete
Malik rock think not I don't smoke I just sleep drink and
eat
Think pot and I want the top a vehicle that brakes
God I want the top a vehicle that brinks got composing

To the ink sock my hip hop is wild megawatts
Continue with forever exist and never stop
Yo whut up whatever ock we can thicken tha plot
because

And it's time for that and it's about that time
It's time for that and it's about that time
Rob O it's time for that and it's about that time
Pete Rock it's time for that and it's about that time
Black Thought it's time for that and it's about that time

I'm Rob O what, energize like a power plant blow
speakers
Without an amp do things these wack rappers can't
And start again 33 RPM the hearts of men
Are cold like the steel I hold on microphones

Let my words express move men like chess

My mic will stand erect like projects
It's drastic top draft pick in this rap shit
You just a fraction caught up in the midst of action

My catalog is current events breath the contents
What I move crowds for local events the show stopper
98 feature spot rocker Rob Odendo
Now every MC wanna mention me out of envy

Unofficially top of the charts I played my part
Held it down from the start you know the M.O.
Yeah yeah Rob Odendo

And it's time for that and it's about that time
It's time for that and it's about that time
Rob O it's time for that and it's about that time
Pete Rock it's time for that and it's about that time
Black Thought it's time for that and it's about that time

Yo it's the Capital P book rhymes of the century
Speak rap line essentially on the M I C
I hold the mic appliance like science
My competitors and clients worldwide as my words
coincide

With real life think twice transmit like true lies
It's televised take my manuscripts out of context
Who want next situation is complex
Stop the nonsense it's 98 time to set the record straight

Separate movers and shakers from those that hesitate
Ya featherweight name carry weight in every state
Ya name brand no frills niggaz is marinate

It's Pete Rock new world innovator
Crush imitators five years since the creator
It's nuff said as I paint the town red and move ahead

And it's time for that and it's about that time
It's time for that and it's about that time
Rob O it's time for that and it's about that time
Pete Rock it's time for that and it's about that time
Black Thought it's time for that and it's about that time
