Girl you got me  
Around your finger  
Like a string tied  
To remember  
I love you, love you, love you more than anybody  
I love you, love you, love you more than anybody  
So what do we do when the feelings gone  
What do we do when we don't belong?  
Love you, love you, love you more than anybody  
So let's just glow

Ooooooh Ooooooh  
Oh Oh Oh Oooooh Oooh-oooh (x3)

Like a million stars shining on the boulevard...

You glow  
Baby you're the sunlight  
You glow  
Even when there's no light  
You glow  
Baby girl you're so bright  
You glow  
(You glow! glow! )

You're a shining  
Supernova  
In the sky  
Let's shine til the fuses blow up  
All the light-bulbs in the nightclubs  
(Clap clap) lights on (clap clap) lights off  
Baby there ain't no one like us  
Turning me on like a light-switch, click click  
Tonight let's celebrate the light you emanate  
And get so high that we might just levitate  
Hey! ain't trying to be too cliché  
But you shine like a u.v. ray, got my shades on  
You the rainbow and the pot of gold  
We can dance like dust particles  
In front of a high school projector  
Girl your sex is electric, let's just glow

Ooooooh Ooooooh  
Oh Oh Oh Oooooh-Oooh (x3)

Like a million stars shining on the boulevard...

You glow  
Baby you're the sunlight  
You glow  
Even when there's no light  
You glow  
Baby girl you're so bright  
You glow  
(You glow! glow! )
