i think you want it
you know that im watching you
your kinda shy, as you cross the room
i like that, that thing you do
are you looking back, could you want me to
from the front to the back everybodies on the floor
its so intoxicating and i think you want it more

from the front to the back
everybodies on the floor, its so intoxicating i think you
want it
come and dance with me tonight
i promise you im just your type
dont make me wait another minute more
cause im everything you're looking for
and i think you want it

come boy here let me talk to you
i like your style, that thing you do
i want to get next to you boy,
maybe we can slide for a little while

from the front to the back everybodies on the floor
its so intoxicating and i think you want it more
from the front to the back everybodies on the floor
its so intoxicating i think you want it

come and dance with me tonight
i promise you im just your type
dont make me wait another minute more
cause im everything you're looking for
and i think you want it

i think you want it

can we get together
i want to know you better
can we get together
i want to know you better
can we get together
i want to know you better

can we get together
i want to know you better

from the front to the back everybodies on the floor
its so intoxicating and i think you want it more
from the front to the back everybodies on the floor
its so intoxicating i think you want it

come and dance with me tonight
i promise you im just your type
dont make me wait another minute more
because im everything your looking for
and i think you want it

you want it
