[Intro: Children singing] (5X)

"Ain't no second time to appreciate"

[Verse 1: C.L. Smooth]

First of all, you better count your blessings

When you got C.L. now you got bad boy, your connections

In return, while we live and we learn, then you know what it is

To only build a bigger future for the kids

In peace, in war, lets take it to the floor

Every time we take two steps the crowd takes four

Lay the heat, how I come to the street, how I cut through the beef

Let me handle that, that's why you make me chief

It's packed, what they want in this here

Can we weather the storm, six minutes, C.L. Smooth you're on

All the anger and the fear, was in the dressing room prayer

That we came out to light it up and put it in the air

That's real, so holler back at ya boy, step aside Leroy

To all my ladies, who want tickets, enjoy, cause

I spit it and you gotta get with it and you'll never forget it

Yes, I want the best out, count 'em all

[Chorus]

"Ain't no second time to appreciate"

To the fans and to all my people that supported us

"Ain't no second time to appreciate"

To the mama and the daddy and everything they taught us

"Ain't no second time to appreciate"

Tell them kids they gotta stay in school or ride with us

"Ain't no second time to appreciate"

When it all goes down, baby, All We Got Is Us

[Verse 2: C.L. Smooth]

You tell 'em this is history in the making, avoiding disasters

This run is for the green jacket, I fit, the masters  
My crew havin' business, save, put it in through my  
office  
The security is tight and the secretary is gorgeous  
That's official, me and Pete in the lab, that's what they  
want  
Pushin that real hip hop, up to the front  
The game's been good to me, preserved my youth  
Not only, did it capture my goals and told me the truth  
Look out my hustle, made a living, paid and driven  
See why they tour around the world came to save us  
from prison  
It's great, I rather love than hate  
You think it fell out the sky, I'm here to tell you, why  
believe in faith  
Hard work, payin of and them wishes comin' true  
Bolt open and you out to lunch, and left us two  
Now you know we can't let that pass to get that cash  
We in the big numbers, count 'em all

[Chorus]

[Verse 3: C.L. Smooth]

Why my Uncle Doc left me everything when he died,  
and  
When pop passed, two weeks later I cried, and  
When great grandma left it all went crazy now  
All I had left was grandma Pam, that's my baby  
Can't talk bad about me, she tell 'em, why we need to  
give her  
All those roses while she could smell 'em  
I live this moment used to stay how we was  
How my mother came to her in a dream and told her  
Corey will come out of this deep dark depression,  
stand by me  
Give my insight a resurrection and heal me  
And feel me, what you got is to love, got a thing  
This little woman who brought back the thug, let's grind  
Ghetto's Of The Mind while I'm in my prime  
I left, so y'all can catch up, I'm ahead of my time  
Your legacy and that lazy boy say it ain't fear  
My next generation triple my digits, add 'em up like

[Chorus]
