"In Love For A While"

Visit "[In Love For A While](#)" on MotoLyrics.com

I looked into your eyes,
And when I saw your smile
I knew right from the start,
Life is good for a while.

Romance comes and goes,
But a love like ours is here to stay
Each lovely night and sunny day.

I love everything about you,
I couldn't do without you
Whenever you're near me
All my days are on the bright side
But when I'm not around you
I have to find the way to be with you
Each night and every day.

Na nanananana, na nanananana na
Na nananana...

And as time goes by
And we've seen stormy weather
I know that you and I,
Were only getting better.

But when I'm not around you
I have to find a way to be with you
Each night and every day
I love everything you do
I couldn't do without you,
I love everything you do
I have to find a way to be with you
I know you and I, are in Love for a while.
