Since I met you, I think about you all the time
And again and again and again
So I can't sleep at night , 'cause you're still on my mind
No I can't, no I can't, no I can't

Try so hard just to forget you, try to get you off my mind
but everytime I try, I think about you one more time...

Chorus :

See what you've done, see what you've done
Don't you see what you've done to me?
See what you've done, see what you've done
Don't you see what you've done to me?

See what you've done to me
Just see what you've done, done to me...

And all my friends had known :
"Just let that loser go"
even (if) it hurts, if it hurts, if it hurts
So I dated other guys
twice your size
Hasn't worked , hasn't worked, hasn't worked

(Chorus:)

See what you've done to me
Just see what you've done, done to me...

See me running rounda circles, climbing up the walls
I'm not getting any further...
See what you've done to me
Just see what you've done, done to me...

Try so hard just to forget you, try to get you off my mind
but everytime I try, I think about you one more time...

(Chorus:) x 2

See what you've done to me
Just see what you've done to me...
Just see what you've done, done to me...
