"A New Family"

Visit "[A New Family](#)" on MotoLyrics.com

Laid my head down
On your belly
I've never heard something so warm
It was bubbling
And popping
Like a fish dying on a shore

We all sing
Do, do, do you wonder
If it will overflow
'Cause when you least expect it
You will let it go

When you got it
You got it
A place to overthrow
'Cause we've got friends here
A new family
Some home away from home

We all sing
Do, do, do you wonder
If it will over grow
'Cause sooner or later
You will let it go

When you got it
When you got no place to go
We've got friends here
We've got a home away from home
We got it
we got it
we got it

When you got it
When you got no place to go
We've got friends here
We've got a home away from home
We got it
